FIELD ACTIVITY REPORT

Pen Selling Activity | Date: 10 October 2026

Objective: To improve communication, confidence, patience, and selling skills by approaching people and selling pens.

My Experience: During this activity, I approached different people to sell pens. Some people bought the pens, while some ignored me, moved away, or were not interested. Even though I faced these challenges, I did not give up and continued approaching people politely.

Result: I purchased 8 pens at ■8.50 each and sold all 8 pens at ■10 each.

Pens sold	Cost per pen	Selling price per pen	Total profit
8	■8.50	■10.00	■12.00

Learning: This activity taught me that sales require patience, a positive attitude, clear communication, and continuous effort. Rejection is part of sales, but persistence helps us achieve our target.
