Primary Goal

Sell a ₹4-cost pen by understanding the customer's requirement, highlighting everyday utility, and politely asking for the sale.

Step-by-Step Approach

- **Understand:** Identify what the customer needs and whether they require an everyday smooth-writing pen.
- **Explain:** Describe useful features honestly (smooth ink flow, comfortable grip, form filling).
- **Close:** Clearly state the price (₹9 / ₹10) and request the customer to make the purchase.

Sales Pitch Delivered

"Namaste! Aapko daily writing ke liye pen chahiye? Yeh pen notes aur forms jaise everyday kaam ke liye kaafi useful hai. Kya main aapko ek pen ₹10 mein de sakta hoon?"

Pricing Breakdown

Metric	Value
Cost Price per Pen	₹4.00
Selling Price Offered	₹10.00
Margin per Pen	₹6.00 (150% Profit)

Financial Calculation

Calculation Step	Amount
Total Cost (10 Pens × ₹4)	₹40.00
Total Revenue (10 Pens × ₹10)	₹100.00
Net Profit Earned (Revenue – Cost)	+ ₹60.00

Formula: Net Profit = Total Sales Revenue – Total Cost

Handling Customer Questions

- **"I don't need it right now."** → Respect their decision politely without pressuring.
- **"What is the price?"** → State ₹10 clearly and highlight value proposition.
- **"Why should I buy this specific pen?"** → Explain smooth ink flow and compact daily utility.
- **"I will think about it."** → Thank them for their time courteously.

Final Activity Metrics

Metric	Result
Pens Stocked	10 Units
Pens Sold	10 Units (100% Liquidation)
Total Cost	₹40.00
Total Revenue	₹100.00
Net Profit	₹60.00 (150% Margin)
